

### Annexure -3

#### Agreement for Supply of Electricity Low Tension

An Agreement made this 10th day of July of 2008 between ..... and its successor and assigns (hereinafter referred to as the consumer) of the one part and the Meghalaya Power Distribution Corporation limited an electricity distribution licensee under the EA, 2003 and its successors and assigns (hereinafter referred to as the Distribution/Utility/MePOCL) of the other part.

Note : The term "consumer" includes an individual person (whether male or female), a body of persons, a company, society, firm, association or organization.

Whereas, the consumer has applied to the distribution utility for supply of electricity to the premises and the distribution utility has agreed to give the supply under the terms and conditions hereunder appearing.

Now, therefore, the agreement witness :-

(1) That the supply shall be given to the premises located at Sangma, Dohring with the Consumer as owner/occupier of ;

(2) That the supply shall be for the purpose of Domestic the load whereof shall not exceed 2000 watts.

(3) That the provision of the EA, 2003 and the regulations, code and orders including tariff orders, as may be made from time to time by the MePOCL shall apply and bind the consumer and the distribution utility alike.

(4) That the consumer shall regularly and timely pay to MePOCL all charges may be due for the supply of electricity.

- (4-x) That the consumer shall pay the Transformer Maintenance Charge as stipulated and thereby maintenance and replacement of the transformer on account of the same shall be the responsibility of the licensee.
- (5) That the agreement shall be for a period of two years and may be renewed for a further period. Provided that supply shall not be terminated by mere efflux of time if the consumer is willing that the agreement is renewed.
- (6) That the agreement shall be terminated if the consumer on its part desires it so and gives to the MePDCL a prior notice of not less than one month or on the part of the MePDCL if the consumer has violated any of the terms and conditions of the agreement.
- Provided that on the part of the MePDCL notice shall be given to the consumer stating the reasons for the proposed termination and giving him opportunity to state his case and his statement, if any, duly considered before the agreement is terminated and the supply of Electricity cut off.
- (7) The terms and conditions of this agreement shall be effective from the date of supply of Electricity is commenced.

IN WITNESS WHEREOF the parties hereto have set their hands and seals the date, month, and year first above written.

(For and on behalf of and by  
Authorisation the) consumer.

(For and on behalf of MePDCL.

## TEST REPORT

This is to certify that I have been qualified to make electrical installations in the premises of:

41	80	8	5	0m	8						
----	----	---	---	----	---	--	--	--	--	--	--

(Please enter your full name in the space above)

(Full Name)

Chintan	Chopra									
---------	--------	--	--	--	--	--	--	--	--	--

(Address)

I fully comprehend, tested and is ready for your Inspection of test and removal of pre-existing

i. The load has been arranged as follows:-

Details of Load	Wattage of each item	Phase - 1		Phase - 2		Phase - 3		Total watt of all 3 phases
		No. of points	Total watt	No. of points	Total watt	No. of points	Total watt	
1. Light power								
i) Fluorescent								
ii) Incandescence								
iii) CFL								
iv) LED								
v) Others	100W	114	1140	60W	64	640		
2. Fan power								
3. Plug points (2pin)								
i) 2Amp	100W	100	10000W					
ii) 1Amp	100W	100	1000W					
4. Electrical galvaniz.								
i) Water Heater								
ii) Dryer								
iii) Refrigerator								
iv) Air Conditioner								
v) Others								
5. Workshop								
i) Tools								
6. Other								
<b>Total</b>		<b>15636W</b>						
Service of load disconnected								
Existing load (in watts)								
Load load on the premises (in watts)		<b>2kW</b>						

Tested:

i) On the occasion of inspection done on the above mentioned day it is found

ii) Rating of existing load on the basis of Motor and Welding. There is no load on power connection to the premises and i)

100%

Highly significant positive correlations were found between the scores for each of the Sustained Attention, Stroop, Digit Span and Raven tests and the scores for the Young Survey (Table 1). Significant negative correlations were found between the scores for the Young Survey and the digit span test and the Raven test.

• The people behind you (the people who are going to buy from you) will buy from

It helps the person learn more language options to help you to better know your child by the time he or she begins to speak. It also helps the child to keep his/her brain active by being involved in a program that has them helping others to help him/her learn new words.

Figure 14 lists several findings we propose to use to help us predict the most likely place where the individual species found within the core habitat may occur outside of current ranges. As a consequence, although our field surveys will continue to focus on areas that we know to contain good quality habitat, we will also consider other areas.
