supply of

Me.S.E.B. Schedule I Form 7

## Meghalaya Energy Corporation Limited TEST REPORT

This is to certify that repaired/renewed/additional/new electric installation at the premises of

SMT I TAHUNLANG MAWTHOH

(Please leave one block between name & surname)

(Full Name)

DIENG PIA SOH

(Address)

is duly completed, tested and is ready for your Engineer to test and connect on your main line.

1. The load has been arranged as follows:-

| Details of Load                       | Wattage of each items | Phase - 1     |            | Phase - 2     |            | Phase - 3     |            | Total watt of all 3 phases |
|---------------------------------------|-----------------------|---------------|------------|---------------|------------|---------------|------------|----------------------------|
|                                       |                       | No. of points | Total watt | No. of points | Total watt | No. of points | Total watt |                            |
| 1. Light points                       | 100                   | 4             | 400        |               |            |               |            |                            |
| (i) Fluorescent                       |                       |               |            |               |            |               |            |                            |
| (ii) Incandescent                     |                       |               |            |               |            |               |            |                            |
| (iii) CFL                             |                       |               |            |               |            |               |            |                            |
| (iv) Halogen                          |                       |               |            |               |            |               |            |                            |
| (v) Others                            |                       |               |            |               |            |               |            |                            |
| 2. Fan points                         |                       |               |            |               |            |               |            |                            |
| 3. Plug points (3-pin)                | 100                   | 4             | 400        |               |            |               |            |                            |
| (i) 6 Amps                            |                       |               |            |               |            |               |            |                            |
| (ii) 16 Amps                          |                       |               |            |               |            |               |            |                            |
| 4. Electrical gadgets                 |                       |               |            |               |            |               |            |                            |
| (i) Water Heater                      |                       |               |            |               |            |               |            |                            |
| (ii) Geysers                          |                       |               |            |               |            |               |            |                            |
| (iii) Refrigerator                    |                       |               |            |               |            |               |            |                            |
| (iv) Air Conditioner                  |                       |               |            |               |            |               |            |                            |
| (v) Others                            |                       |               |            |               |            |               |            |                            |
| 5. Welding Transformer                |                       |               |            |               |            |               |            |                            |
| 6. Motor                              |                       |               |            |               |            |               |            |                            |
| Total                                 |                       | 800           |            |               |            |               |            |                            |
| In case of load enhancement           |                       |               |            |               |            |               |            |                            |
| Existing load (in watts)              |                       | 1000          |            |               |            |               |            |                            |
| Total load in the premises (in watts) |                       | 1800 kwt      |            |               |            |               |            |                            |

Notes:-

(a) Details of any apparatus (other than the above mentioned) should be given.

(b) Rating of capacitor used in Induction Motor  
and Welding Transformer (Test report of capacitor  
is to be enclosed).
