

# Meghalaya Energy Power Distribution Corporation Limited

## TEST REPORT

This is to certify that repaired/renewed/additional/new electric installation at the premises of

A N D R E W W A N K U P A R L A N G S T I E H

(Full Name)

(Please leave one block between name & surname)

M N W R N T S H I L L O N G

(Address)

is duly completed, tested and is ready for your Engineer to test and connect on your main line.

1. The load has been arranged as follows :-

| Details of Load                   | Wattage of each item | No. of points |            | Total Watt    |            | No. of points |            | Total Watt    |            | Total watt of all 3 phases |
|-----------------------------------|----------------------|---------------|------------|---------------|------------|---------------|------------|---------------|------------|----------------------------|
|                                   |                      | No. of points | Total Watt | No. of points | Total Watt | No. of points | Total Watt | No. of points | Total Watt |                            |
| 1. Light points                   |                      |               |            |               |            |               |            |               |            |                            |
| ✓ (i) Fluorescent                 | 40                   | 10            | 4000       | 10            | 400        | 10            | 400        | 10            | 400        | 12000                      |
| (ii) Incandescent                 |                      |               |            |               |            |               |            |               |            |                            |
| (iii) CFL                         | 20                   | 10            | 200        | 10            | 200        | 10            | 200        | 10            | 200        | 6000                       |
| ✓ (iv) Halogen                    |                      |               |            |               |            |               |            |               |            |                            |
| (v) Others                        |                      |               |            |               |            |               |            |               |            |                            |
| 2. Fan points                     |                      |               |            |               |            |               |            |               |            |                            |
| 3. Plug points (3-pin)            |                      |               |            |               |            |               |            |               |            |                            |
| ✓ (i) 6 Amps                      | 100                  | 8             | 800        | 6             | 600        | 8             | 800        | 8             | 800        | 22000                      |

| In case of load enhancement       |                      |               |            |               |            |               |            |               |            |                            |
| Existing load (in watts)          |                      | 25kw          |            | 15 kw         |            |               |            |               |            | 40kw                       |
| Total load in premises (in watts) |                      |               |            |               |            |               |            |               |            |                            |

Notes :-

- (a) Details of any apparatus (other than the above mentioned) should be given.
- (b) Rating of capacitor used in Induction Motor and Welding Transformer (Test report of capacitor is to be enclosed).
