

ME.S.E.B. Schedule I Form 7

# Meghalaya Energy Corporation Limited TEST REPORT

This is to certify that repaired/renewed/additional/new electric installation at the premises of

SMTI LAISHAH SYNMAH

(Please leave one block between name & surname)

(Full Name)

MAWPDANG MAWMYLLIEM

(Address)

is duly completed, tested and is ready for your Engineer to test and connect on your main line.

1. The load has been arranged as follows:-

| Details of Load                                                                                                            | Wattage of each item | Phase - 1     |            | Phase - 2     |            | Phase - 3     |            | Total watt of all 3 phases |
|----------------------------------------------------------------------------------------------------------------------------|----------------------|---------------|------------|---------------|------------|---------------|------------|----------------------------|
|                                                                                                                            |                      | No. of points | Total watt | No. of points | Total watt | No. of points | Total watt |                            |
| 1. Light points<br>(i) Fluorescent<br>(ii) Incandescent<br>(iii) CFL<br>(iv) Halogen<br>(v) Others                         | 100                  | 4             | 400        |               |            |               |            |                            |
| 2. Fan points                                                                                                              |                      |               |            |               |            |               |            |                            |
| 3. Plug points (3-pin)<br>(i) 6 Amps<br>(ii) 16 Amps                                                                       | 100                  | 4             | 400        |               |            |               |            |                            |
| 4. Electrical gadgets<br>(i) Water Heater<br>(ii) Electric Fan<br>(iii) Refrigerator<br>(iv) Air Conditioner<br>(v) Others |                      |               |            |               |            |               |            |                            |
| 5. Welding Transformer                                                                                                     |                      |               |            |               |            |               |            |                            |
| 6. Motor                                                                                                                   |                      |               |            |               |            |               |            |                            |
| Total                                                                                                                      |                      |               | 800 kwt    |               |            |               |            |                            |
| In case of load enhancement<br>Existing load (in watts)                                                                    |                      |               | +1000 kwt  |               |            |               |            |                            |
| Total load in the premises (in watts)                                                                                      |                      |               | 1800 kwt   |               |            |               |            |                            |

Notes:-

(a) Details of any apparatus (other than the above mentioned) should be given.

(b) Rating of capacitor used in Induction Motor and Welding Transformer (Test report of capacitor is to be enclosed).
