## TEST REPORT

This is to certify that repaired/renewed/additional/new electric installation at the premises of

S M I P A L I T Y D K H A R

(Please leave one block between name &amp; surname)

(Full Name)

N O N G S O H P H A N

(Address)

is duly completed, tested and is ready for your Engineer to test and connect on your main line.

1. The load has been arranged as follows: -

| Details of Load                       | Wattage of each item | Phase - 1     |            | Phase - 2     |            | Phase - 3     |            | Total watt of all 3 phases |
|---------------------------------------|----------------------|---------------|------------|---------------|------------|---------------|------------|----------------------------|
|                                       |                      | No. of points | Total watt | No. of points | Total watt | No. of points | Total watt |                            |
| 1. Light points                       |                      |               |            |               |            |               |            |                            |
| (i) Fluorescent                       |                      |               |            |               |            |               |            |                            |
| (ii) Incandescent                     | 60w                  | 6             | 360w       |               |            |               |            |                            |
| (iii) CFL                             |                      |               |            |               |            |               |            |                            |
| (iv) Halogen                          |                      |               |            |               |            |               |            |                            |
| (v) Others                            |                      |               |            |               |            |               |            |                            |
| 2. Fan points                         |                      |               |            |               |            |               |            |                            |
| 3. Plug points (3-pin)                |                      |               |            |               |            |               |            |                            |
| (i) 6 Amps                            | 180w                 | 4             | 400w       |               |            |               |            |                            |
| (ii) 16 Amps                          | 1500w                | 2             | 2000w      |               |            |               |            |                            |
| 4. Electrical gadgets                 |                      |               |            |               |            |               |            |                            |
| (i) Water Heater (Geyser)             |                      |               |            |               |            |               |            |                            |
| (ii) Refrigerator                     |                      |               |            |               |            |               |            |                            |
| (iii) Air Conditioner                 |                      |               |            |               |            |               |            |                            |
| (iv) Others                           |                      |               |            |               |            |               |            |                            |
| 5. Welding Transformer                |                      |               |            |               |            |               |            |                            |
| 6. Motor                              |                      |               |            |               |            |               |            |                            |
| Total                                 |                      |               | 2760 W     |               | or         | 3 K.W.        |            |                            |
| In case of load enhancement           |                      |               |            |               |            |               |            |                            |
| Existing load (in watts)              |                      |               |            |               |            |               |            |                            |
| Total load in the premises (in watts) |                      |               |            |               |            |               |            |                            |

Notes: -

- (a) Details of any apparatus (other than the above mentioned) should be given.
- (b) Rating of capacitor used in Induction Motor and Welding Transformer (Test report of capacitor is to be enclosed).

AGREEMENT FOR SUPPLY OF ELECTRICITY  
LOW TENSION

AN AGREEMENT made this the \_\_\_\_\_ day of \_\_\_\_\_

between And Dipaloty Akkar and his successors and assigns (herein after referred to as consumer) of the One Part and The Meghalaya State Electricity Board an Electricity distribution company under Electricity Act, 2003 and its successors and assigns (herein after referred to as the Board) of the Other

*Note* The term 'consumer' includes an individual person (whether male or female), a body of persons in company, society, firm, association or organization

WHEREAS, the consumer has applied to the Board for supply of electricity to its premises and the Board has agreed to give the supply under the terms and conditions hereinafter appearing

NOW, THEREFORE, the agreement witnesses

1) That the supply shall be given to the premises located at Norupon Pham with the consumer as owner / occupier of

the supply shall be for the purpose of DLF  
where the load shall not exceed 3 k.w. walls,

2) That the provision of the Electricity Act, 2003 and the Regulations, Code and Orders, including Tariff Orders and any order made from time to time by the Meghalaya State Electricity Regulatory Commission shall apply and bind the consumer and the Board alike,

3) That the consumer shall regularly and timely pay to the Board all charges and may be due for the supply of Electricity

4) That the Agreement shall be a period of two years and may be renewed for a further period

Provided that supply shall not be terminated by mere efflux of time if the consumer is willing that the contract be renewed,

5) That the Agreement shall be terminated if the consumer on its part desires it so and gives to the Board a notice in writing of not less than one month or, on the part of the Board, if the consumer has violated any of the terms and conditions of the Agreement

Provided that on the part of the Board notice shall be given to the consumer stating the reasons for the  
served termination and giving him opportunity to state his case and his statement, if any, duly considered before  
- Agreement is terminated and the supply of electricity Cut off,

(7) That the terms and conditions of this Agreement shall be effective from the date supply of Electricity is  
commenced

IN WITNESS WHEREOF the parties hereto have set their hands and seals the date, month and year  
above written.
