

# Meghalaya Energy Corporation Limited

## TEST REPORT

This is to certify that repaired/renewed/additional/new electrical installation at the premises of

THISSIBON KHYRIEM

(Please leave one block between name & surname)

(Full Name)

MAWPA T WAHEH

(Address)

is duly completed, tested and is ready for your Engineer to test and connect on your main line.

1. The load has been arranged as follows:-

| Details of Load   | Wattage of each item | Phase - 1     |               | Phase - 2     |            | Phase - 3     |            | Total Watt of all 3 phases |
|---|----------------------|---------------|---------------|---------------|------------|---------------|------------|----------------------------|
|   |                      | No. of points | Total wart    | No. of points | Total wart | No. of points | Total wart |                            |
| 1. Light points<br>(i) Fluorescent<br>(ii) Incandescent<br>(iii) CFL<br>(iv) Halogen<br>(v) Others              | 20W                  | 9 No          | 180W          |               |            |               |            |                            |
| 2. Fan points   |                      |               |               |               |            |               |            |                            |
| 3. Plug points (3-pin)<br>(i) 6Amps<br>(ii) 16 Amps   | 150W<br>1500W        | 7 No<br>2 No  | 700W<br>2000W |               |            |               |            |                            |
| 4. Electrical gadgets<br>(i) Water Heater (geyser)<br>(ii) Refrigerator<br>(iii) Air Conditioner<br>(iv) Others |                      |               | 2880W         |               |            |               |            |                            |
| 5. Welding Transformer  |                      |               |               |               |            |               |            |                            |
| 6. Motor  |                      |               |               |               |            |               |            |                            |
| Total   |                      | say           | 3kw           |               |            |               |            |                            |
| In case of load enhancement<br>Existing load (in watts)   |                      |               |               |               |            |               |            |                            |
| Total load in the premises (in watts)   |                      |               |               |               |            |               |            |                            |

Notes:-

- Details of any apparatus (other than the above mentioned) should be given.
- Rating of capacitor used in induction Motor and Welding Transformer  
(Test Report of capacitor is to be enclosed)
