

# Meghalaya Power Distribution Corporation Limited

## TEST REPORT

This is to certify that enhancement in individual new electric installation at the premises of

**INDUCTION SYSTEMS**

(Please leave one blank between name & surname)

(Full Name)

**MAWPHIT MAWMRUIE**

(Address)

is duly completed, tested and is ready for your Engineer to test and connect on your main line.

The load has been arranged as follows :-

| Details of Load                                                                                               | Wattage of each item | Phase - 1     |             | Phase - 2     |            | Phase - 3     |            | Total watt of all 3 phases |
|---------------------------------------------------------------------------------------------------------------|----------------------|---------------|-------------|---------------|------------|---------------|------------|----------------------------|
|                                                                                                               |                      | No. of points | Total watt  | No. of points | Total watt | No. of points | Total watt |                            |
| 1. Light points<br>(a) Fluorescent<br>(b) Incandescent<br>(c) LED<br>(d) Halogen<br>(e) Others                | 20                   | 10            | 200         |               |            |               |            |                            |
| 2. Fan points                                                                                                 |                      |               |             |               |            |               |            |                            |
| 3. Plug points (3-point)<br>(a) Amps<br>(b) Jumps                                                             | 100<br>1000          | 7<br>2        | 700<br>2000 |               |            |               |            |                            |
| 4. Electrical load<br>(a) Water Heater<br>(b) Geyser<br>(c) Refrigerator<br>(d) Air Conditioner<br>(e) Others |                      |               |             |               |            |               |            |                            |
| 5. Welding Transformer                                                                                        |                      |               |             |               |            |               |            |                            |
| 6. Motor                                                                                                      |                      |               |             |               |            |               |            |                            |
| Total                                                                                                         |                      |               | 2900 Wts    |               |            |               |            |                            |
| In case of load enhancement<br>Existing load in watt                                                          |                      |               |             |               |            |               |            |                            |
| Total load in the premises in watt                                                                            |                      |               | 2900 Wts    |               |            |               |            |                            |
