Respected Sir/Madam,

I am writing to bring to your kind attention the issue of excess billing on my electricity account. My last bill payment was made on 01-07-2025 for Rs. 26,759, and also another Payment Rs. 550 for reconnection charge.

After the power was reconnected, there was a fault in my internal wiring for which the power line was disconnected by the electrician. Currently, only a domestic load is connected to my meter, which includes a few LED tube lights, bulbs, one computer and surveillance cameras. All appliances are switched off daily at about 7 PM and remain Off on Sunday .

Despite the minimal usage, I have noticed that for the last two months my electricity bills have shown an average consumption of about 864 units per month which is abnormally high considering the connected load .

I therefore request you to kindly review and rectify the billing as per the actual usage. I would also appreciate it if you could arrange a meter inspection to check for possible faults or incorrect readings.

Additionally, after this issue is resolved, I will be changing to a digital meter to ensure more transparent and accurate billing in the future.

For your reference, I have also attached a recent photo of my meter's current reading along with this application. Please also note that a Complaint was raised on 01-NOV-2025 at 10:09:14 AM through the mobile app under Ticket 251100005 .

Thank you for your attention and prompt action.

Yours faithfully,

For Riyoda Pyrbot

Sir/Madam,

This is the Second Mail I am writing for the Correction of Light Bill .

Also I want to bring to your notice that inspite of raising complain for the correction in light Bill online ticket no. 251100005 dated 01-11-2025 and by mail on 17-11-2025, recently the meter has been disconnected.

I have enclosed a photo of the same.

Please give me a resolution at the earliest.

Thanking You,

Regards

Chetan Sharma
